

NOTICE TO RESIDENTS OF TRANSVALE ACRES

Please be advised that teams from the Conway Village Fire Department and the State Fire Marshall's Office will be conducting a survey of the buildings in your neighborhood on Thursday and Friday Sept. 1 and 2, 2011.

This survey is to make sure that all residents are accounted for and to determine the condition of individual buildings to report to the Federal Emergency Management Agency (FEMA). FEMA will then determine whether our area qualifies as a disaster area. If so, aid to the community may become available.

The purpose of the survey is not to discuss available aid, only to gather information.

If you need food and shelter: go to the Conway Recreation building at 1808 E. Main St. in Center Conway or call 447- 5680 for information and transportation.

To Report Damage to your home call: 211

Additional information will be provided as it becomes available: Please listen to WMWV and check the town web page a www.conwaynh.org for updates.
